To: Luke Sturdevent
680 E. Office St.
Harrodsburg, KY 40330

Dear Luke Sturdevent,

We are writing to express our support for our fellow Corning employees who are currently trying to organize their union in North Carolina. We believe that Corning workers, like all workers, deserve the right to choose to organize their union without management interference.

Corning has a long history of positive relationships with its workers and their union. Unions have been part of Corning since 1945. The partnership between the company and the union has not only created good union jobs, but helped build this company into what it is today.

For this reason, we are writing to express our profound disappointment with Corning's actions. We would like to remind management that Corning was built by the hard work and sacrifices of generations of union members and their families. We stand in strong, unqualified solidarity with all Corning workers who seek to organize. We demand that Corning allow all of its workers the right to freely choose a union without any interference from management.

We call on management to immediately cease their interference and intimidation tactics in the organizing efforts of their employees. We demand that you stop all so-called "union avoidance" behavior, including but not limited to: negative communications from management to employees about the union or union organizing, anti-union meetings in the workplace and retaliation against workers for organizing.

We trust that you will do the right thing.

Sincerely,

Bob Noel, President
